ARRIVE at 11:30am

Zipline thru the trees 3 hours

Long Island Adventure Park 7 beautiful acres of woodlands with an amazing “adventure in the trees”
Over 130 platforms installed in the trees connected by cable, wood, and rope to form bridges and zip lines.

Choose from five different color-coded trails, from “beginner” (easier and lower to the ground) to intermediate, to advanced (the most challenging)

Receive a complete safety orientation before your climb. Double-connected, “always-locked-on” climbing system keeps your climbing harness securely attached to the safety line at all times.

* What clothing should I wear?

Wear fitted clothing that does not allow anything to hang loose or get tangled in cables and rope. Long hair and jewelry should not be left loose. Sneakers or hiking shoes are recommended. Flip-flops and sandals are not acceptable.

• What equipment is provided?

A harness and gloves are provided with your admission ticket. New gloves are also available for purchase in the Adventure Store.

• Is there a height, age or weight restriction?

There is no height restriction for the ropes courses and zip lines. The trails are for ages 7 to adult. You must be 10 years of age to use the blue trails with adult participation. A chart with participation and supervision requirements is on the ropes courses general rules page. Whenever adult participation is required the 1:2 adult/child ratio must be met.

•Regarding a weight restriction, the limit is 265 pounds.

• Do I have to be really fit to do the trail?

Most people that lead an active lifestyle and are in good health should not have any difficulty in completing many of the trails. You are able to proceed at a pace that is comfortable to you. You are also welcome to leave the ropes course and take a break. Unlike the yellow and green trails, the blue, black, and double black trails can be very challenging.

• How difficult are the trails?

The trails range from easier (yellow) to advanced (black diamond). Relative to each persons ability, the trails are very manageable but become more physically challenging as you progress to more difficult trails. If you have not been up in the air before you may be unsettled at first about being 10 feet above the ground on a yellow trails or 20 feet above the ground at points on a green trails. Very quickly you will begin to have fun with the challenges and the height above the ground will not be your main focus. Your focus becomes being balanced and efficient on each bridge you are crossing. You will be secure and safe in your harness as long as you are **Always Attached**. Being attached to your lifeline is the most important requirement to remember and you are responsible to be **Always Attached**.
